
Appendix A VC Zoning Recommendations

The maps on the following pages depict proposed village center zoning district boundaries. The purpose and criteria for any recommended changes are outlined in the Land Use, Natural Resources and Community Design and Appearance chapters (Chapters 2, 9 and 9).

Priority Funding Areas (PFA) boundaries are shown for general reference only. Slight differences in correspondence between shoreline and parcel line boundaries do not indicate recommended changes. The PFAs are the general areas in which the State has indicated that capital improvements would be consistent with smart growth goals for villages.
